

UNDERGROUND BASES AND PREPARATIONS FOR PLANET X

The person who wrote this message to us did so under his own name (which we have checked), and enclosed a number of photographs of him with the Prime Minister of Norway and (separately) with Benazir Bhutto.

I am a Norwegian politician. I would like to say that difficult things will happen from the year 2008 till the year 2012.

The Norwegian government is building more and more underground bases and bunkers. When asked, they simply say that it is for the protection of the people of Norway. When I enquire when they are due to be finished, they reply "before 2011". Israel is also doing the same and many other countries too.

My proof that what I am saying is true is in the photographs I have sent of myself and all the Prime Ministers and Ministers I tend to meet and am acquainted with. They know all of this, but they don't want to alarm the people or create mass panic.

Planet X is coming, and Norway has begun with storage of food and seeds in the

Svalbard area and in the Arctic north with the help of the US and EU and all around in Norway. They will only save those that are in the elite of power and those that can build up again: doctors, scientists, and so on.

As for me, I already know that I am going to leave before 2012 to go the area of Mosjøen where we have a deep underground military facility. There we are divided into sectors, red, blue and green. The signs of the Norwegian military are already given to them and the camps have already been built a long time ago.

The people that are going to be left on the surface and die along with the others will get no help whatsoever. The plan is that 2,000,000 Norwegians are going to be safe, and the rest will die...

I am very sad. Often I cry with others that know that so many will learn too late, and then it will all be over for them... All the major politicians know this in Norway, but few will say it to the people and the public—because they are afraid in case they too will miss the NOAH 12 railcars that will take them to the ark sites where they will be safe.

If they tell anyone, they are dead for sure. But I don't care any more about myself. Mankind must survive and the species must survive. People must know this.

All the governments in the world are aware of this and they just say it is going to

happen. For those of the people that can save themselves I can only say reach for higher ground and find caves up in the high places where you can have a food storage for at least five years with canned food and water to last for a while. Radiation pills and biosuits are also advisable if your budget allows it...

I could have written to you using another name but I am not afraid of anything any more. When you know certain things, you become invincible and no harm can come to you when you know that the end is soon...

Remember that those who are going to be in and around the city areas in 2012 are those that are going to be hit first and die first. Later the army will purge the rest of the survivors and they have a shoot-to-kill order if there is any resistance to bring them into the camps where everyone will get marked with a number and a tag...

The public will not know what happens till the very end, because the government does not want to create mass panic. Everything will happen quietly and the government will just disappear...

Kind regards

Selected extracts from further emails:

When I was in the military I was in the [name of service given]. At one point we were given a task to get something out of a

base and deliver it to another base.

We were told: "Do not ask any questions. Just do your job."

Later, when we landed outside the base, we were taken by trucks to outside the base where there were large doors heavily guarded by other military personnel.

Or it seemed like they were military, but they had different suits on them: orange and black suits with the orange suits having a golden triangle on them and the black suits having a green triangle...

We went through the large doors. I was thinking, "What the hell is this?", and I felt a bit scared at first. It was like something out of a science fiction movie. This was the first time I was in such a base.

We then came to a 500-metre-long tunnel and there were more of these military personnel waiting with guns and transport for us. We were divided up in groups. Some went another way, and I and my group were asked to come with the black-suited guards so they could take us to another location. When we came to the end we were asked to put on some masks "for our own protection".

I was thinking, "for our own protection": "Aren't we already protected by being inside this huge underground complex and by guards with weapons?"

We were then asked to step inside a railcar—and this is what I know of the railcars. They are run by some kind of blue crystal energy, I think, or at least that is how it appeared. Then we sat in the cars and I asked one of the guards, "What is this?" He replied, "You don't need to know this, sir..."

I could see that there was a tube-like system and the other railcars were going so fast you just saw a light going by. I think this was a vacuum tube system where there is no drag. There were a lot of these railcars around, as it seemed, and they just went passing by, like a light passes by in a flash.

Later on, after I went into politics, I found out what was inside of the rest of the base and what the bases are for, which I have already told you. I know that when this railcar moved—and it moved *fast*—I had never seen anything like this before. Later when we arrived at the end station I was feeling sick, and the other people that were there also felt the same way. One of the guards said it happens the first time to everyone.

When we came outside we were given goggles and asked to go through a security check. This is where it all gets weird.

There were guards with weapons all over

the place—and remember I told you about the energy fields that one has to go through. I was thinking, "I should not be here at this place," and I was a little scared.

Then we got through this energy field and came to another room. I saw that there was a screen on the side of the wall that said "HUMAN — NOT HUMAN — PURE — NOT PURE".

After I saw this I was thinking, "Are there 'NOT HUMANS' too?"

The guards stopped us and told us to change clothes inside another room and come with them. When we had done so they said that it was time to go further down. Again, I was thinking, "How large is this place? We just came out of a rail system that runs for miles and miles—and then there is more?"

We were then taken to a lift system, with seats, that was going to take us down—or this is what I thought it was going to do. But it went sideways for about three minutes. In this place, time was not known to me because we had no way of telling what the time was. They had taken everything away from us at the check-ins...

All I can say is that when our job was done I was thinking that the world is not as it seems to be, and that many things are hidden from the public. It makes me sad and scared.

Later, when I got into politics, I began digging into this because I needed more answers. What I found out was that these bases were Arks for the government and some of the people and military to survive inside. There was a threat from outside

that was going to be in the year 2012 and that the human species had to survive.

The "Planet X" I learned about is from all [of] what I have seen till now. The government knows this and [is] keeping it from the public. They have been tracking this object for a long time now and were given the first warnings from the USA.

I know that 18 bases exist in Norway. I don't know what many of the dangers are because I am not a scientist. But what I know is that before 2012 the different governments are going to leave for the bases that they have built for the last 40 or 50 years.

If this object goes by, there will be a lot of problems on the surface of the Earth. That is all I know. This is why they go underground.

If such an event comes, they have made sure that five years or more underground is going to be what they need to avoid this. When they know it's safe to surface, they will rebuild again. We were just told that we have to leave before 2012 and that there is something in space that is going to cause much destruction.

I don't know if there is a threat from the sun itself. I am not so much into the science of things. I am just telling what I have seen and nothing more.

I can say that I have already said too much, but the people are now warned about this...

Kind regards
